AROUND THE WORLD

# ABOUT COMPANY

- A leading European manufacturer of Air Curtains, Air Handling and Heat Recovery Units and wide range of HVAC products
- Creating efficient solutions since 1995
- Innovative, specialized, focused
- In-house R&D. European quality.
- Worldwide presence

# AIR CURTAINS

Have the comfort and convenience of an open door without expensive heat loss. 2VW Air Curtains provide a financial and environmentally friendly solution. They are an option for all buildings that require a constant internal temperature, regardless of the weather.

# STANDESSE

Extraordinary high-performance and visually attractive air curtain for use in buildings, such as banks, luxury shops, shopping centres, airports and administrative buildings with a recommended installation height up to 5 m\*.

\* Maximum recommended installation height/width – it may differ based on the existing conditions at the installation location.

## COMFORT AND ELEGANCE

- Modern and attractive design
- Silent operation
- Energy-efficient **EC fans** (optionally)
- Universal interface for **AirGENIO** control module connection
- Adjustable blades
- Building Management System
- Length up to **2.5 m**

ENERGY SAVING SYSTEM | FACE 2in1 | NOISE LOW-LEVEL SYSTEM | WIRE HEATER | ANTIFREEZE PROTECTION  
MODULAR CONTROL SYSTEM | THREE YEARS WARRANTY | MagiCAD | AirGENIO CONTROL

# STANDESSE XP

Air curtain with cutting-edge design delivering supreme performance, excellent efficiency and outstandingly low sound. It is a perfect solution for installations at the airports, shopping malls, office buildings or other public places, with recommended installation height up to 6 m\*.

\* Maximum recommended installation height – it may differ based on the existing conditions at the installation location.

## SUPREME PERFORMANCE AND UNIQUE DESIGN

- Outstanding performance of **industrial strength**
- Unique construction with remarkably **low sound**
- **Timeless shapes** and appealing angles
- Extremely **low SFP** thanks to highly efficient EC fans
- Adjustable outlet from -5° up to 20° with full airstream
- Unique **STRAW-SYSTEM** Technology
- **AirGENIO SUPERIOR** control
- Building Management System
- Lengths up to **3,0 m**

NOISE LOW-LEVEL SYSTEM | ENERGY SAVING SYSTEM | STRAW SYSTEM | ANTIFREEZE PROTECTION  
THREE YEARS WARRANTY | MagiCAD | AirGENIO CONTROL

# FINESSE

Discrete and high-performance recessed air curtain for use in entrance areas of banks, administrative buildings, luxury boutiques, shopping centres and airport halls with a recommended installation height up to 5 m\*.

\* Maximum recommended installation height/width – it may differ based on the existing conditions at the installation location.

## DISCREET POWER

- Low built-in height
- Silent operation
- Energy-efficient **EC fans** (optionally)
- **AirGENIO** controls
- Building Management System
- Adjustable blades
- Length up to **2.5 m**

ENERGY SAVING SYSTEM | FACE 2in1 | NOISE LOW-LEVEL SYSTEM | WIRE HEATER  
MODULAR CONTROL SYSTEM | THREE YEARS WARRANTY | MagiCAD | AirGENIO CONTROL

# ESSENSSE NEO

Standard high-performance air curtain with large coverage of commercial applications, such as shops, restaurants, administrative buildings and manufacturing facilities with a recommended installation height up to 4 m\*.

\* Maximum recommended installation height/width – it may differ based on the existing conditions at the installation location.

## COMFORT WITH STYLE

- Modern and attractive design
- Energy-efficient **EC fans** (optionally)
- **Unique STRAW SYSTEM Technology** – maximizing screening effect
- Silent operation
- **AirGENIO** controls
- Building Management System
- Easy installation and service
- Length up to **2.5 m**

ENERGY SAVING SYSTEM | FACE 2in1 | WIRE HEATER | STRAW SYSTEM | MODULAR CONTROL SYSTEM |  
THREE YEARS WARRANTY | MagiCAD | AirGENIO CONTROL

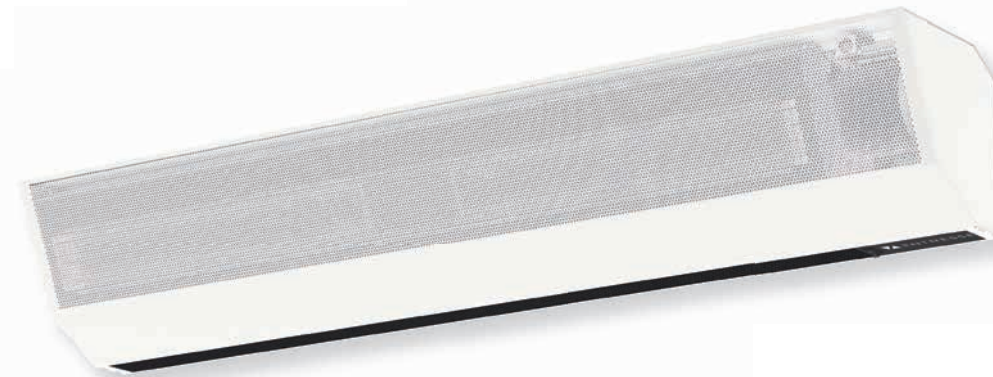

# ENTRESSE

Compact and practical air curtain combining the benefits of good quality, great screening performance and being a perfect solution for budget conscious customers. A streamlined design provides a wide range of installation applications such as small shops, restaurants, cafes and such premises, with recommended installation height up to 2,5 m\*.

\* Maximum recommended installation height – it may differ based on the existing conditions at the installation location.

## COMPACT AND PRACTICAL

- Compact and neat design
- Practical for use and installation
- Efficient **STRAW-SYSTEM** exhaust
- Easy and intuitive operation
- Adjustable airflow direction
- IR remote control

NOISE LOW-LEVEL SYSTEM | WIRE HEATER | STRAW SYSTEM | THREE YEARS WARRANTY | MagiCAD

# BASIC

The air curtain for small openings where a narrow hot stream is required for use in buildings, such as **fast-food facilities, drive-thru restaurants, petrol stations and receptions** with a recommended installation height up to 1.5 m\*.

\* Maximum recommended installation height/width – it may differ based on the existing conditions at the installation location.

## SMALL AND POWERFUL

- Modern and attractive design
- Silent operation
- Remote control
- Easy installation and service

FACE 2in1 | NOISE LOW-LEVEL SYSTEM | PLUG & PLAY | WIRE HEATER | THREE YEARS WARRANTY

# VENESSE

Vertical air curtain with universal design for both right and left installation for use in buildings, such as banks, offices, restaurants and shopping centres with a recommended width up to 4 m\*.

\* Maximum recommended installation height/width – it may differ based on the existing conditions at the installation location.

## SILENT PERFORMANCE FOR VERTICAL INSTALLATIONS

- Unique design solution for exposed areas
- Ultra silent operation
- **AirGENIO** controls
- Building management system
- Available in stainless steel version
- Length up to **2.5 m**

NOISE LOW-LEVEL SYSTEM | WIRE HEATER | ANTIFREEZE PROTECTION

THERE YEARS WARRANTY | MagiCAD | AirGENIO CONTROL

# INDESSE

High-performance industrial air curtain for vertical and horizontal installation in manufacturing facilities, warehouses, distribution centres and other industrial buildings. Low maintenance air curtain with long service life. Vertical and horizontal installation with a recommended height / width up to 8 m\*.

\* Maximum recommended installation height/width – it may differ based on the existing conditions at the installation location.

## SIMPLY THE BEST

- **Unique STRAW SYSTEM Technology**
  - maximizing screening effect
- Ultra high performance
- Energy-efficient **EC fans** (optionally)
- **AirGENIO IC-C** control system
- Long lifespan
- Building management system
- Wide range of accessories

ENERGY SAVING SYSTEM | NOISE LOW-LEVEL SYSTEM | WIRE HEATER | STRAW SYSTEM | ANTIFREEZE PROTECTION

THERE YEARS WARRANTY | MagiCAD | AirGENIO CONTROL

# INDESSE GP

High-performance industrial air curtain for vertical and horizontal installation for use in manufacturing halls, warehouses, logistics centres and other industrial buildings with a recommended installation height / width up to 8 m\*.

\* Maximum recommended installation height/width – it may differ based on the existing conditions at the installation location.

## GREEN TECHNOLOGY GREAT PERFORMANCE

- Outlet combined with **STRAW SYSTEM** Technology and **DUAL AIRSTREAM** System
- Ultra high performance
- Energy-efficient **EC fans**
- Long lifespan
- **AirGENIO IC-C** control system

ENERGY SAVING SYSTEM | NOISE LOW-LEVEL SYSTEM | STRAW SYSTEM | ANTIFREEZE PROTECTION

THERE YEARS WARRANTY | DUAL AIRSTREAM | AirGENIO CONTROL

**2VV**

# AIR HEATERS

A powerful and efficient solution for heating large interior areas. 2VV Air Heaters keep you warm and comfortable!

# SAVANA

Wide and variable range of high efficient heating units designed for wall and ceiling installation and suitable for use in industrial and agricultural buildings, warehouses, manufacturing and sport facilities.

## LET'S HEAT UP

- High heating performance
- Energy-efficient **EC fans** (optionally)
- Variable face covers
- **STRAW SYSTEM Technology** to reach maximal air flow
- Silent operation
- Easy installation
- Low maintenance
- **AirGENIO SC-C** control system

ANTI-DUST COIL | JET SYSTEM | NOISE LOW-LEVEL SYSTEM | THREE YEARS WARRANTY | MagiCAD

# SAVANA INOX Plus

Anticorrosive unit with casing made from stainless steel. Designed for aggressive environment in buildings such as livestock farms, car washes, swimming pools, bakeries etc.

## AND LET'S HEAT UP STAINLESS

- Unit with increased anti-corrosive protection with casing made from stainless steel
- Energy-efficient **EC fans** (optionally)
- Adjustable blades
- Silent operation
- Easy installation
- Low maintenance
- **AirGENIO SC-C** control system

ANTI-DUST COIL | NOISE LOW-LEVEL SYSTEM | THREE YEARS WARRANTY | MagiCAD

# AIR HANDLING UNITS

No one can live without fresh air, and it is the same for every building. 2VV ventilation solutions provide the answer to your air quality needs.

# ALFA EC COMFORT

Highly effective ventilation unit for ventilating and heating/cooling commercial premises, such as offices, shops, coffee bars, restaurants and sports facilities.

## FRESH AND HEALTHY AIR

- Compact size and powerful output
- Energy-efficient **EC fans** for complete range
- **AirGENIO** controls
- Easy installation
- Low maintenance

NOISE LOW-LEVEL SYSTEM | WIRE HEATER | DX COIL | ANTIFREEZE PROTECTION

THERE YEARS WARRANTY | AirGENIO CONTROL

# HEAT RECOVERY UNITS

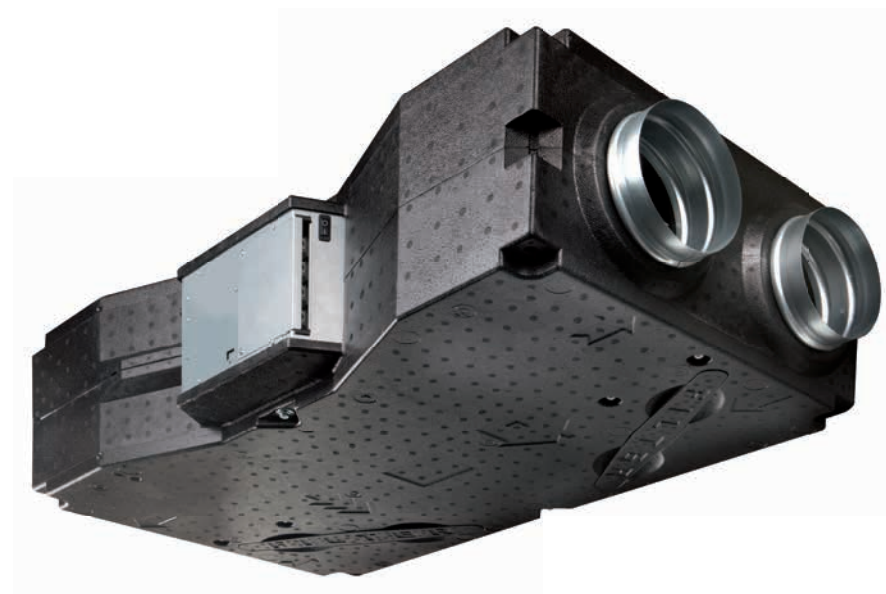

An exclusive range of commercial and residential Heat Recovery Units provide the latest environmental answers to the challenges of energy conservation in ventilation. 2V Heat Recovery Units give you fresh air when you want, where you want and how you want.

# VENUS

A compact series of high-performance residential heat recovery units recommended for under-ceiling installation in flats, residential houses, family houses and low-energy and passive houses.

## VENTILATION WITHOUT COMPROMISE

- Efficiency up to 93%
- Ultra silent operation
- Ultra light construction and compact size
- **AirGENIO** controls
- Slim design for under-ceiling installation
- Smartphone **2VV AirGENIO** Application

ENERGY SAVING SYSTEM | NOISE LOW-LEVEL SYSTEM | PLUG & PLAY | SWIRL CHAMBER SYSTEM |  
ANTIFREEZE PROTECTION | THREE YEARS WARRANTY | AirGENIO CONTROL | 2VV AirGENIO APP

# DAPHNE

Energy saving heat recovery unit designed for wall and basement installation in residential applications, such as flats, residential houses and low-energy houses.

## EVERGREEN EVERFRESH EVERLASTING

- Efficiency up to 93 %
- Ultra silent operation
- Energy-efficient **EC fans**
- Attractive design
- Universal installation  
- reversible doors front/back
- Smartphone **2VV AirGENIO** Application
- **XL size for commercial application available**

ENERGY SAVING SYSTEM | NOISE LOW-LEVEL SYSTEM | PLUG & PLAY | SWIRL CHAMBER SYSTEM |  
ANTIFREEZE PROTECTION | THREE YEARS WARRANTY | AirGENIO CONTROL | 2VV AirGENIO APP

# WHISPER AIR

The WHISPER AIR heat recovery unit is designed for decentralised ventilation. It provides an ideal solution in both new and existing buildings. Its minimum noise level makes it a perfect choice for schools, offices and conference rooms.

## ENJOY THE SILENCE

- Efficiency up to 90 %
- **ENTHALPY** version – High humidity regeneration up to **60 %**
- Ultra silent operation (35 dBA at nominal airflow)
- Energy efficient **EC fans**
- **AirGENIO** controls
- Integrated CO<sub>2</sub> sensor
- Easy installation and maintenance

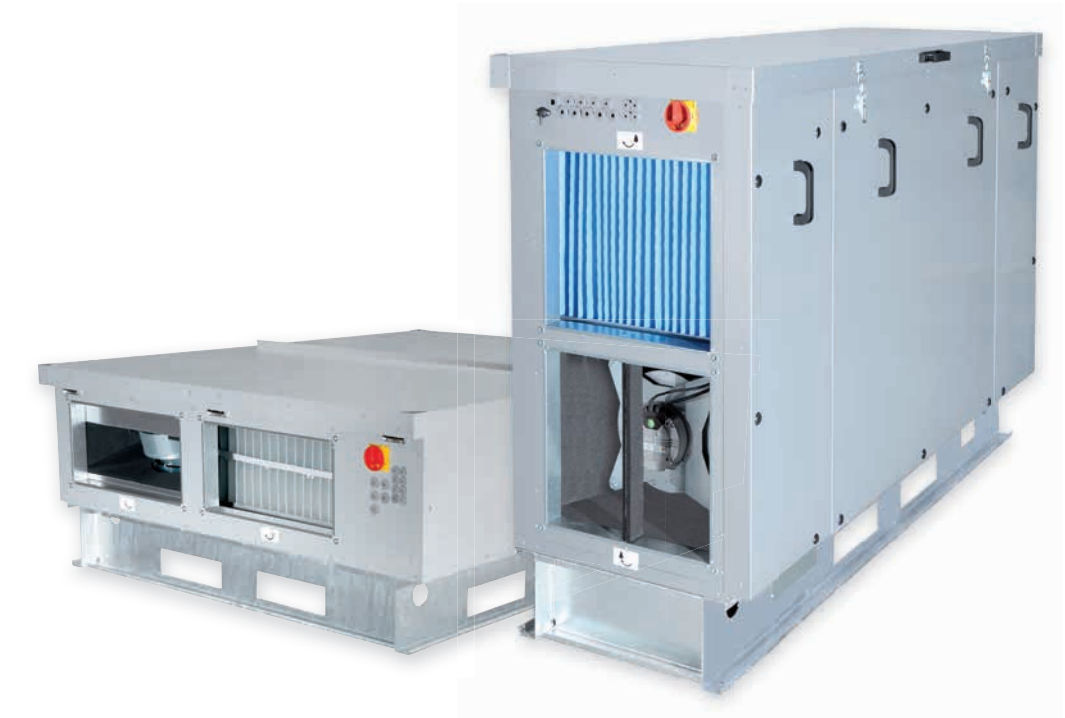

ENERGY SAVING SYSTEM | NOISE LOW-LEVEL SYSTEM | SWIRL CHAMBER SYSTEM  
ANTIFREEZE PROTECTION | STRAW SYSTEM | THREE YEARS WARRANTY | AirGENIO

# ALFA 95

Highly efficient vertical and horizontal heat recovery unit range for indoor/outdoor installations designed for commercial applications, such as offices, coffee bars, restaurants and sport facilities.

## THE ALFA AND OMEGA OF YOUR VENTILATION

- Efficiency up to 93 %
- **AirGENIO** controls
- Indoor and outdoor installation
- Easy service and maintenance

ENERGY SAVING SYSTEM | NOISE LOW-LEVEL SYSTEM | DX COIL | SWIRL CHAMBER SYSTEM  
ANTIFREEZE PROTECTION | THREE YEARS WARRANTY | AirGENIO

# ALFA 95 FLAT

Under-ceiling heat recovery unit designed for applications in commercial interiors, such as shops, offices, coffee bars, restaurants and sports centres.

## BECAUSE SIZE MATTERS

- Efficiency up to 93%
- Ultra slim design for suspended ceilings
- **AirGENIO** controls
- Easy installation and service
- Service software

ENERGY SAVING SYSTEM | NOISE LOW-LEVEL SYSTEM | PLUG & PLAY | SWIRL CHAMBER SYSTEM  
DX COIL | ANTIFREEZE PROTECTION | THREE YEARS WARRANTY | AirGENIO

# ALFA 85

Wide and flexible range of highly efficient heat recovery units for indoor/outdoor installations designed for commercial applications, such as offices, coffee bars, restaurants and sport facilities.

## DRIVING WHEEL OF YOUR VENTILATION

- Rotary regenerator with efficiency up to 85 %
- **AirGENIO** controls
- Indoor and outdoor installation
- Easy installation and service
- **XL** size available

ENERGY SAVING SYSTEM | NOISE LOW-LEVEL SYSTEM | ROTARY HEAT EXCHANGER  
DX COIL | ANTIFREEZE PROTECTION | THREE YEARS WARRANTY | AirGENIO

**2V**

# AIR PURIFIERS

Improve your indoor air quality and remove the contaminants from the air in the room. 2V air purifiers deliver excellent air performance and highly-efficient purifying technologies.

# VIREX AIR

Antiviral mobile air purifier significantly reducing the risk of airborne infection transmission inside buildings. The VIREX AIR provides excellent indoor air purification with efficiency more than 99.995%.

Designed for use in classrooms, offices, receptions, waiting rooms, cafes, gyms, retail stores, etc.

## BREATHE SAFELY

- Highly efficient filtration **HEPA H14** (99,995 %)
- **UVC chamber** with ultraviolet radiation at wavelength of 254 nm
- Pre-filter ePM1 55% (F7)
- Air performance 1,000 m<sup>3</sup>/h
- Efficient and powerful EC fan
- Quiet operation – only 37,8 dBA at 720 m<sup>3</sup>/h
- Easy control

NOISE LOW-LEVEL SYSTEM | ENERGY SAVING SYSTEM | AIR PURIFICATION  
PLUG & PLAY | THREE YEARS WARRANTY
